DETAILED ACTION

*Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 5 and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Fostik et al..

The claimed invention reads on Fostik et al. as follows:

Regarding claim 5, Fostik et al. discloses a method (fig. 2) for communicating short messages (P:0045) comprising: forwarding an electronic message to an another address (first communication device)( P:0045 lines 1-3), the forwarding in response to at least an indication of unsuccessful delivery of a short message service (P:0045 lines 1-3), (SMS) message to a destination communication device (handset) (P:0045 lines 1-11), wherein the forwarding in enabled from a web-base provision application (web browser) (P:0045 lines 1-19).

Art Unit: 2618

Regarding claim 24, Fostik et al. discloses deleting (removing) an undelivered message in a SMSC (queue) (P:0045 lines 1-25).

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 23 is rejected under 35 U.S.C. 103(a) as being unpatentable over Fostik et al. in view of Kransmo et al..

Regarding claim 5, Fostik et al. discloses a method as discussed supra in claim 5 above. Fostik et al. differs from claim 23 of the claimed invention in that it does not explicit disclose formatting the electronic message as a message having a format compatible with the first communications device. Kransmo et al. teaches formatting a mode that is compatible with originating mobile station (180) (P:0030 line 1 through P:0031 line 8). Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Fostik et al. with formatting the electronic message as a message having a format compatible with the first communications device in order for the forwarding the SMS message to the another

Art Unit: 2618

address to be compatible to receive the SMS message, as taught Kransmo et al..

***Allowable Subject Matter***

5. Claims 1-4,6-21,25 and 27 are allowed.

6. The following is a statement of reasons for the indication of allowable subject matter: Upon close review of the claims, the prior art of record and applicants remarks in the Amendment on page 6 line 22 through Page 10 line 10 mailed December 26, 2006, it appears that the allowance of claims 1-4,6-21,25 and 27 is appropriate.

***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 2618

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
